Project Title:

Prepare report for Line Organization

Area of Specialization:

Line organization is the most oldest and simplest method of administrative organization. According to this type of organization, the authority flows from top to bottom in a concern. The line of command is carried out from top to bottom. This is the reason for calling this organization as scalar organization which means scalar chain of command is a part and parcel of this type of administrative organization. In this type of organization, the line of command flows on an even basis without any gaps in communication and coordination taking place.

Theory of Micro-Project Topic:

Line organization structure is the oldest and simplest form of organization. In these organizations, a supervisor exercises direct supervision over a subordinate. Also, authority flows from the top-most person in the organization to the person in the lowest rung. This type of an organization is also called a military organization or a scalar-type organization.

Line organization is the simplest framework for the whole administrative organization. Line organization approaches the vertical flow of the relationship. In line organization, authority flows

from the top to the bottom. It is also known as the chain of command or scalar principle. In this article, we will talk about a line organization.
